We are **ClearPath Orthodontics!**

Your Smile, Our Science.

You know what it takes to build exceptional orthodontic expertise – dedication, precision, and unwavering commitment to patient care. That's something we deeply understand. ClearPath Orthodontics began in **2007** when **Dr. Waqas Wahab** pioneered a revolutionary approach to clear aligner technology. He envisioned a solution that would be comfortable, convenient, and nearly invisible – giving patients the smiles they deserve without the hassle of traditional braces.

Our aligners are designed to fit seamlessly into patients' lifestyles while delivering predictable, outstanding results that transform smiles.

As word spread about our innovative approach and unwavering commitment to patient satisfaction, our community grew. Now, we're proud to have helped orthodontists enhance hundreds of thousands of smiles worldwide, while staying true to our core belief: your success is our success.

For over **18 years**, we've let this simple philosophy guide us: listen to our partners and put their needs first. It's why thousands of orthodontists trust us with their practices and patients, and it's why we'll always be here, innovating and supporting you every step of the way.

Reasons to Choose **ClearPath**

ClearPath Orthodontics stands out as a leader in clear aligner technology, offering precision, comfort and efficiency. Our advanced digital treatment planning ensures accurate and predictable results, giving you a straighter smile with confidence. Unlike traditional braces, ClearPath aligners are nearly invisible and custom-made for maximum comfort.

Our innovative approach minimizes treatment time while delivering outstanding results. With expert orthodontic supervision and high-quality materials, ClearPath provides a seamless, hassle-free experience. Choose ClearPath as your trusted orthodontic partner for a smarter, more convenient way to achieve perfect smiles!

Digital Precision

Every aligner is designed using advanced 3D imaging to map out your patient's treatment

Material Science

ClearPath aligners are made from high-quality, medical-grade polymer for durability and clarity

Predictable Results

Our smart software ensures efficient tooth movement with accuracy, control and minimal discomfort

The Art of **Alignment**

After more than 18 years of excellence, ClearPath Orthodontics has helped hundreds of thousands of patients achieve their dream smiles. Every aspect of our manufacturing process is grounded in rigorous research, clinical expertise, and invaluable feedback from our trusted orthodontic partners.

Our commitment to advancement never wavers – we keep pushing forward, improving our technology and processes each and every day to deliver the exceptional results our partners and their patients deserve.

Precision Meets **Possibility**

Streamlined Digital Solutions

Our efficient treatment planning software and portal offer seamless Case Management, Progress Tracking, Patient Records, and Documentation

Orthodontist-Led Treatment Planning

Our expert-led treatment planning ensures precise, reliable and effective 3D treatment plans and their clinical outcomes

Precision Fit

Our 50-micron accuracy ensures a high level of precision in force delivery

Cutting-Edge 3D

Our state-of-the-art 3D printing units ensure high-capacity production, pinpoint accuracy, and CAD control

Fewer Attachments

Our patented manufacturing results in snug-fitting aligners, minimizing the need for attachments

Stain Resistant

The aligners are crafted from premium, BPA-free, FDA approved material, making them uniquely clear and resistant to staining

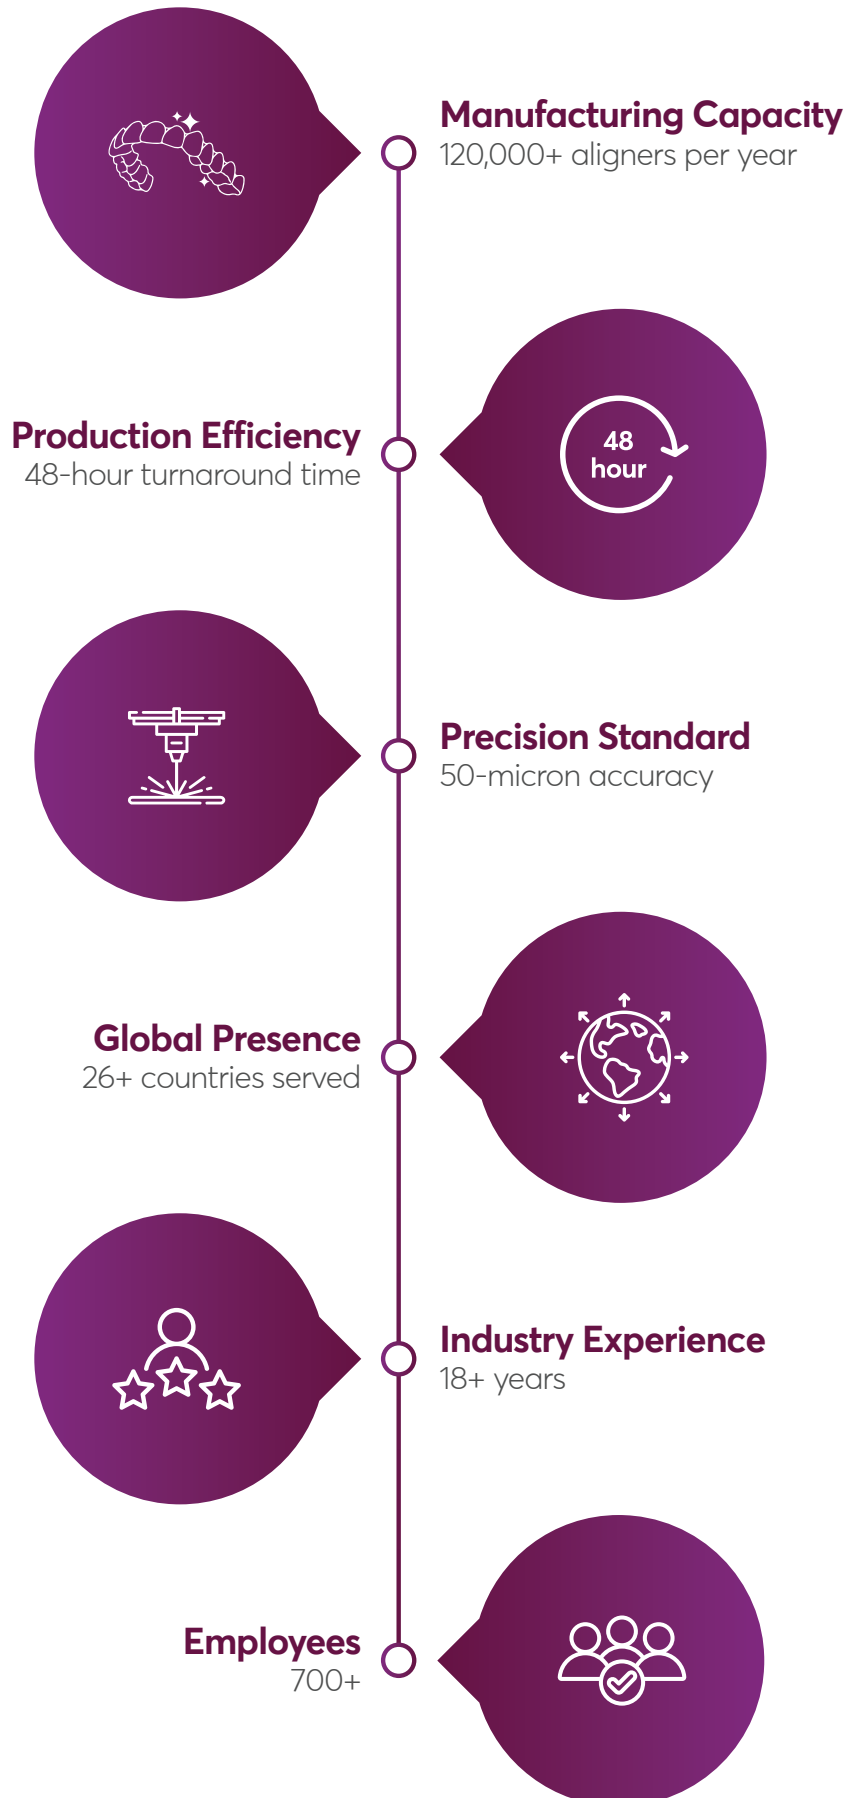

Treatment **Planning**

When it comes to Treatment Planning, we're meticulous about every detail.

Experience our advanced 3D treatment simulation platform, giving you a complete preview of your patient's smile transformation journey. View expected outcomes, track progress through each stage, and access detailed recommendations for IPR and attachments. Share the interactive treatment plan with patients through a simple web link to boost case acceptance and engagement.

Precision, Scale & **Global Excellence**

Your Partner in **Orthodontic Success**

Affordable & Accessible

Competitive pricing and comprehensive training make advanced aligners available to more orthodontists and patients.

Founded by Orthodontists

Since 2007, we've collaborated with experts to enhance clinical outcomes and practice efficiency.

Unmatched Support

Dedicated specialists provide personalized, hassle-free service to ensure your long-term success and satisfaction.

Premium Quality

Engineered with advanced polymer technology for superior clarity, durability and stain resistance.

A man with long hair, wearing a brown fedora, sunglasses, a white t-shirt, and a light blue denim shirt, is smiling and gesturing with his hands while talking to a woman. The woman is seen from the side, wearing a white shirt and sunglasses. They are in a park-like setting with green trees in the background. A large, semi-transparent purple circle is overlaid on the lower half of the image, containing text and a QR code.
