

Scaling new heights

Introducing ClearPath Clarix Our Latest Tri-Layer Technology

A smarter way to deliver clear aligner performance through multi-layer engineering

Clinical **Benefits**

Controlled
Tooth Movement

Consistent Force
Over Time

Low Insertion
Force

Improved Tracking
Accuracy

Excellent Patient
Comfort

Fewer
Refinements

Enhanced
Crack Resistance

More Predictable
Tooth Movement

Advanced **Clinical Manufacturing**

1 Advanced
Thermoformers

2 Controlled
Anterior Thinning

3 Uniform
Ceramic Heating

4 CNC-Based
Automated Finishing

5 Automated
Gingival Trimlines

6 Automated
Sterile Packaging
