- Supplied in structured batches of 10 stages

Included with Every Case

- 24-hour digital treatment planning turnaround
- Unlimited modifications prior to final clinician approval
- 48-hour aligner production turnaround
- Secure online portal for case submission and tracking
- Branded treatment planning viewer (customised for your practice)
- Advanced multi-layer aligner material
- CNC precision-trimmed aligners
- Dedicated clinical support team
- Manufactured in accordance with applicable UKCA / CE medical device regulations
- ISO 13485 certified quality management system

Additional Aligner Policy

If treatment requires stages beyond the selected package limit:

- Additional aligners are available at £12 per arch.
- Treatment may therefore continue without automatic escalation to a higher package tier.

Delivery Model

Cases are supplied in structured batches of 10 stages to ensure:

- Inventory control
- Treatment progress monitoring
- Controlled clinical progression

*The final batch includes retainers to complete the treatment cycle

Retention

- One complimentary retainer set is included with every case and dispatched with the final aligner batch.
- Additional retainers are available at £20 per arch.
